

Sound, light, music, dance, installations and scenography. Copenhagen Harbor Parade celebrates art in Copenhagen over 3 days by and on the water in Copenhagen Harbor from 11 - 13 August 2023

Celebration of Copenhagen as art metropolis and Harbour city

For the 3rd time from the 11-13 of August, 2023, the Port of Copenhagen will be engulfed in a 3-day long firework of music, dance and artwork, performed on floating stages through the city canals and harbor. The festivities are free of charge and can be experienced in the blue areas of the city, from streets, quays, water and bridges. You'll get the full experience from one of the parade zones, where you can go in-depth with each individual performance. The heart of the parade is situated on "The Kissing Stairs", at Ofelia Plads, where you'll find a cool festival site with bars, street food and the high profiled evening concerts with Girls In Airports, Teitur and Kira Skov.

The parade celebrates Copenhagen as a fantastic art- and harbor city. Historically, both parts have had great significance for the city image, identity and development, and it still does. The parade was awarded a Danish Music Award in 2020 for most innovative concert format, as it offers a wide pallet of artistic genres and expressions. All artworks relate to Copenhagen and several were written specifically for this year's parade, as a reflection on the city.

"By using the public space, the familiar framework of the art experience is broken down, bringing the people of Copenhagen together, gathered around the cultural life that is usually enclosed behind city walls. We simply turn the bubbling art environment of Copenhagen inside out bringing it at eye level. At the same time, we pay tribute to Copenhagen as a unique Harbour City, with art flowing through its veins." says festival manager Mai Seidelin.

The parade is 3 days long and addresses different topics. On Friday the 11 of August you can experience the parade in the evening from 20-24, in the inner city and the canals of Christianshavn. On Saturday the 12 of August, a new parade sets off during the day from 12, and ends with a musical celebration on the Kissing Stairs in the evening. On Sunday the 13 of August, the parade is docked in Havneviggen at Islands Brygge, where the festival is for children and their adults from 10-16.
